

A Report on Industrial and Educational Tour - 2023

An Industrial & Educational Tour was conducted with 23 (Twenty Three) TDC 6th Semester students of the Department of Commerce along with 06(Six) teachers of the said Department.

Journey was started on 19th May'2023 at 7.30 AM from the main gate of our College and reached at Umrangso at around 11.30 AM. All the students and teachers stayed in Homestay at Umrangso (SIRKUT) . On that day in the afternoon we visited Khandom Dam (NEEPCO) and also the Hydro Power Station. The Officials of Power station nicely explain how to generate the electricity from the Hydro Power and also the working of the control panel.

On 20th May'23 we went to Meghalaya, Khang Shuri waterfall and a very popular tourist place. The teachers and students enjoyed there and after lunch we returned back to Umrangso at round 9PM. Taken Dinner at 9.30 PM and then returned to Sirkut (Homestay).

On 21st May'23 we went to Dalmia Cement factory and short discussion about the manufacturing and production of Cement was delivered by the Deputy Manager of the factory.

On the way to Haflong we visited Daogah and Panimur waterfalls and also taken lunch at Panimur and reached at Haflong at 5.15 PM.

The entire tour was very interesting and the students enjoyed a lot, learn the basic knowledge of Industrial process. Moreover as a result of the tour the students become more friendly among themselves and with the teachers also.
