Institutional Policy Document on Green Campus

Haflong Government College endorses a policy of Green Campus adhering to the value of environmental protection and sustainability. It adheres to the principles of protection and propagation of greeneries in and around the institutions. The institution will initiate acts of plantation in the campus and in the nearby areas; it will continuously educate the learners on environmental issues by effectively implementing curriculum on environmental education. It will always motivate the young learners to take lifelong commitment to environment friendly behaviour. Haflong Government College will take environment friendly measures such as the installation and utilization of solar energy plants, rain water harvesting, proper measures of segregation of solid wastes and their disposals, making the campus plastic free, reduce and minimize the use of paper and take appropriate measure to save power and take any other measures considered favorable to the environment. The institution will stick to these policy decisions and rigorously implement the same with same. The students, teachers, employees and all the stakeholders of the institution will always be made aware of these policies and all of them collectively remain committed to the same.
